EDUCATION

Lincoln University of PA | Oxford, PA | Expected May 2027

Bachelor of Science in Computer Science; 3.6/4.0 GPA

TECHNICAL AND PROFESSIONAL SKILLS

Technical: Python, Intermediate C++, Linux, API Development, Horizon VDI, Virtualization (Hyper-V, RealVNC), Automation, Distributed Systems, Git, Bitbucket, Microsoft 365, Google Workspace

Professional: Problem-Solving, Collaboration, Communication, Adaptability, Conflict Resolution

WORK & LEADERSHIP EXPERIENCE

Texas Instruments | Richardson, TX | May - August 2026

Software Engineer Internship

- Assisted in transitioning RealVNC and Hyper-V virtual desktops to Omnissa Horizon VDI by leveraging Horizon-based APIs and standardized migration processes.
- Developed automated user-resource allocation solutions using Python, Linux environments, and API integrations to identify and resolve resource over-utilization on virtual machines, improving performance trends and preventing potential system issues.
- Built hands-on experience in automation workflows, distributed system monitoring, troubleshooting, and cross-team collaboration to enhance overall IT operational efficiency.

Lincoln University Office of Information Technology | Richardson, TX | August 2024 - Present

Assistant Technology Support Technician

- Successfully troubleshooted and resolved over 500 IT support requests, ensuring efficient problem-solving and enhancing overall system performance
- Reimaged and reconfigured 150+ devices in assembly via PXEBoot to ensure optimal performance and security compliance
- Assisted in the implementation of UPS Network capabilities in structures such as Vail Hall and Amos Hall which improved student network experience.

Lincoln University Senate | Oxford, PA | August 2024- Present

Student and Faculty Chief Technology Chair

- Led cross-functional committee of students and faculty to oversee the strategic direction of campus-wide IT initiatives, improving technology services and infrastructure to enhance user experience.
- Facilitated communication between faculty, students, and IT departments, ensuring alignment of technological tools and resources with academic and administrative needs.
- Implemented cybersecurity awareness programs and policy changes, ensuring compliance with institutional IT standards and protecting sensitive data for the university community.

Discover Sophomore Spark Program | Riverwoods, IL | May 2025

- An immersive three-day Early Engagement program hosted at Discover headquarters in Riverwoods, IL that offers the opportunity to connect with former interns, engage with Discover leaders, and experience our culture and values firsthand.
- Features career and technical panels, community service, and inclusive workflow simulations curated to introduce attendees to Discover and its environment

ACTIVITIES & HONORS

Strada Scholar and Scholarship Recipient (2023 - Present) | 77th - 78th Student Senate Member, Computer Science Club Treasurer (2024) | Computer Science Club President (2026) National Society of Black Engineers (NSBE) | Big Sister Little Sister, Mr 2008
