WORK & LEADERSHIP EXPERIENCE

Jan 24- Present Office of Information Technology Oxford, PA

Assistant Technology Support Technician

- Successfully troubleshooted and resolved over 500 IT support requests, ensuring efficient problem-solving and enhancing overall system performance
- Reimaged and reconfigured 150+ devices in assembly via PXEBoot to ensure optimal performance and security compliance
- Acquired and carefully disposed of more than 200+ laptops, personal computers, printers, and other necessary equipment.
- Assisted in the implementation of UPS Network capabilities in structures such as Vail Hall and Amos Hall.
- Acted as a liaison between the student body and IT department, gathering feedback to enhance digital tools and improve the overall campus technology experience.

August 24-Present Office of Information Technology Committee Oxford, PA

Student and Faculty Chair

- Led cross-functional committee of students and faculty to oversee the strategic direction of campus-wide IT initiatives, improving technology services and infrastructure to enhance user experience.
- Facilitated communication between faculty, students, and IT departments, ensuring alignment of technological tools and resources with academic and administrative needs.
- Implemented cybersecurity awareness programs and policy changes, ensuring compliance with institutional IT standards and protecting sensitive data for the university community.

May 9- 2025 Discover's Sophomore Spark Program Riverwoods, IL

Emmerson Program

- An immersive three-day Early Engagement program hosted at Discover headquarters in Riverwoods, IL that offers the opportunity to connect with former interns, engage with Discover leaders, and experience our culture and values firsthand. Throughout the program, students will develop professional skills, gain insights into our work, and build meaningful connections to support their career journey.

June 2- 2025 Texas Instruments Engineer Your Future Richardson, TX

Emmerson Program

- Selected for a fully funded, 4-day professional development workshop at Texas Instruments headquarters, involving networking with senior leaders, skills-building sessions, and a service project, culminating in an interview for a Summer 2026 internship.

 - Ziana Fashion Club – Fashion Consultant

PROJECTS

-
- At the Den Alert System - A mobile and web-based emergency alert system designed specifically for Lincoln University's campus community. The platform enables students, faculty, staff, and campus police to communicate rapidly during emergencies through

real-time alerts, location sharing, and safety check-ins. The system integrates an AI-powered assistant capable of guiding users through emergency protocols and answering urgent questions

- Breaking Bars (In progress) - reentry platform designed to support formerly incarcerated individuals in securing meaningful employment.
